EDUCATION

Dr. APJ Abdul Kalam Technical University <i>Bachelor of Technology in Information Technology</i> Percentage: 79.67 (Till 6th Semester)	2023 – 2027 Ghaziabad, India
ABS International School <i>Intermediate – Class XII</i> Percentage: 72.8	2020 – 2022 Jaunpur, India
ABS International School <i>High School – Class X</i> Percentage: 94	2018 – 2020 Jaunpur, India

TECHNICAL SKILLS

Languages : C, C++, Python, JavaScript
Frontend : Tailwind CSS, HTML, CSS
Backend : Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware
Databases : MongoDB, SQL
Tools : Git, GitHub, VS Code, Postman
Concepts : Data Structures & Algorithms (Basic to Moderate), OOP, OS, DBMS, CN

PROJECTS

SnapCart <i>Full-Stack E-Commerce Platform</i>	Mar 2025
- Developed a full-stack MERN e-commerce application with secure JWT authentication, user profiles, and role-based admin access for efficient platform management - Implemented RESTful APIs for product catalog, shopping cart, order processing, and user management with robust validation and middleware - Designed scalable MongoDB schemas to optimize product, order, and user data management with efficient querying and performance Tech Stack: MongoDB, Express.js, Node.js, JWT, Cloudinary, Nodemailer, REST API	
FinTrack <i>Personal Finance & Expense Management System</i>	Dec 2025
- Built a secure full-stack web application for tracking daily income and expenses, managing category-wise budgets, and visualizing personal spending patterns - Implemented JWT-based user authentication with bcrypt password hashing and session management for secure multi-user access - Designed RESTful APIs for complete CRUD operations on financial transactions, with input validation and structured error handling middleware - Optimized MongoDB data models using aggregation pipelines for real-time financial reporting, monthly summaries, and category-based transaction filtering Tech Stack: MongoDB, Express.js, Node.js, JavaScript, JWT, REST API	
EHR for ASHA Workers <i>Healthcare Management (Major Project)</i>	Jun 2026
- Developed a RESTful backend for managing patients, visits, vaccinations, and ANC records using Node.js and Express.js. - Implemented JWT-based authentication, role-based authorization, password hashing, and secure access for ASHA workers and PHC administrators. Tech Stack: Node.js, Express.js, MongoDB, JWT, REST API	

WORK EXPERIENCE

Virtual Intern Full-Stack Web Development	Codec Technologies 2026
- Developed a minor Finance tracker full-stack project for managing and tracking personal expenses. - Gained hands-on experience in React.js, Node.js, Express.js, MongoDB, REST APIs, and full-stack application development.	

CERTIFICATIONS & ACHIEVEMENTS

Meta Full-Stack Web Developer Professional Certificate React.js, Node.js, Express.js, REST API Design, Databases, Version Control	Coursera
Solved 250+ DSA problems on LeetCode and Geeksforgeeks, covering arrays, string, linked lists, trees, DP, and greedy algorithms.	
Participated in inter-college technical fests, strengthening teamwork, communication, and problem-solving skills.
